English Story

The disagreement began in the **lab**, over a **cake**. A **classmate** had brought it to the **cafe**, and the **merriment** faded when Maya said that the **bakery** case was not evidence. “You cannot **ignore** the **qualitative** difference,” she said. “A **comparison** is not an **experiment**.” Lin disagreed: an **experiment**, he argued, needed only one measurable thing. The **milky** coffee in front of her went cold while they argued.

Their argument grew **comparative** and then personal. “You are **ashamed** of the messy part,” she said. “You would rather **pose** as a scientist than **investigate** like one.” He heard the injustice in it and said nothing. The **resentment** stood between them for a full **minute**, and the **sunny** afternoon outside made it worse.

The **president** of the **student** union proposed a compromise: a sample in the **grocery**, a survey in the **warehouse**, and a small study in the **realm** of the **desirable**. “That is not **inclusive**,” Maya said. “It is merely convenient, and it is not **comparable** to anything we have **already** done.” **Such** a plan would **compete** with better-funded work and lose, and **all** of them knew it.

The **widespread heating** failure that week settled the argument **by** removing the choice. Half the group was **sick**; the other half was behind. “It is **advisable** to finish **this** in the warmer months,” the **president** said. “**Here**, in **this form**, it is merely a guess.” He did not **apologize**, and she did not **apologise** either; both were too tired for the ceremony of it. The compromise was **honorable**, though the coffee was not.

They inquired, they enquired, they clarified, and eventually they produced an **argumentation** they could both sign. It was **methodical**, **respectful**, and **insightful** about its own limits, and it dealt honestly with the **dealing** of the previous month. Her **curiosity** had survived the month, and so had his. “Not one **notable** finding,” Lin admitted. “No,” she said. “The **commencement** of a method. That is **all**, and that is **much**.” Their **universe** was one library, one **lab**, and one **cafe**, and the **problem** was still the same one. “**Regardless**,” she added, “the numbers went **up** in the right direction.” An **inquisitive** mind, he decided, was not a weakness. **This** was the **first** thing they had grown together rather than **by** accident, and his **major**, he realised, had taught him only half of it.

中文翻译

分歧始于实验室，起因是一块蛋糕。一位同班同学把它带到了咖啡馆；当曼雅说面包店的案例不是证据时，欢乐的气氛消散了。“你不能忽视那个质性的差别，”她说，“一次比较不是一次实验。”林伟不同意：他认为实验只需要一个可测量的东西。他们争论时，她面前那杯奶白色的咖啡凉了。

他们的争论先是比较性的，随后变成了针对个人。“你为混乱的那部分感到羞耻，”她说，“你宁愿装成一个科学家，也不愿像科学家那样去调查。”他听出了其中的不公，没有说话。怨恨在他们之间站了整整一分钟，外面晴朗的下午让它更糟。

学生会主席提出了一个折中方案：在杂货店取样、在仓库做问卷，并在“可取之物”的领域里做一项小型研究。“这不具包容性，”曼雅说，“它只是方便，而且与我们已经在做的事根本无法相比。”这样的方案会与资金更充足的工作竞争并落败，他们所有人都明白这一点。

那一周大面积的供暖故障以取消选择的方式结束了争论。小组一半人病了，另一半落后了。“明智的做法是在更暖的月份完成它，”主席说，“在这里、以这种形式，它只是一个猜测。”他没有道歉，她也没有道歉；两人都太累了，没有力气去走那个过场。这个折中是体面的，尽管那杯咖啡不是。

他们询问、打听、澄清，最终写出了一份两人都能签字的论证。它有方法、有敬意，并且对自己的限度有深刻见解；它也诚实地处理了上个月的那笔交易。她的好奇心熬过了这个月，他的也是。“没有一个值得注意的发现，”林伟承认。“不，”她说，“是一种方法的开端。这就够了，而这也很多了。”他们的宇宙就是一座图书馆、一间实验室和一家咖啡馆，而问题依然是同一个问题。“不管怎样，”她补充说，“数字是在朝正确的方向走。”他断定，一颗爱追问的心不是弱点。这是他们第一次共同成长而非偶然长成的东西；他意识到，自己的专业只教会了他其中一半。

Core Vocabulary · 核心词汇

Word / Pronunciation	Context meaning / source example
ignore ig'no: POS: vt	vt. 不理睬, 忽视, 驳回, 忽略; [计] 忽略 Collocation: — (not independently sourced) Example: v. refuse to acknowledge; v. fail to notice; v. be ignorant of or in the dark about
