

# What the System Remembers: Outside Pressure

## 系统记住了什么：外部压力

Theme: 科学、技术与互联网 · New: 45 · Review: 18 · Planned cumulative progress: 45/6, 127

### English Story

The outside pressure came as a **session** of the faculty board, where a **clear definition** was demanded of the term consent. “Your **outline** must **include** the **literal spelling** of every field,” the director said. “A **copy** of the form is not a **transaction**.” The four of them had to speak to a room that held all the power and none of the facts.

The **gap** between the **border** of the law and the **boundary** of decency was the real subject. A **baseball game on** the radio, a **graph on** the wall, and a **symbol** of the university above the **entrance**: the **interval** between them was the space where the project lived. Health data was not included in the review, and that was exactly the point.

My reluctance was not about **compliance**. “We must **undertake** a **renovation** of the whole process,” Maya said. “We cannot **fetch** consent with a **modification** of the wording.” A **thief** of small permissions, a **scatter** of skipped steps, and a **detection** system that nobody trusted: this was **penetration** by habit, not by attack.

The **view** from the lab was different. “**Put** the **standardization** in place, **normalize** the **browser** logs, and the **coherence** will follow,” the engineer said, with a confidence that the data did not support. The **empty** shelf, the late submission, and the walk to the door were, to him, a **subtraction** of detail.

The **gravitation** of the argument pulled them toward **conformity**: **rank** the fields, **divide** the risks, and file the rest. “Not off, not on,” Lin wrote. “The system must hold a **parallel** record of what we refused to collect.” The talk in the corridor was that the board would stop the project anyway.

Its action, in the end, was small: a summary of four pages, a **perspective on** the person, and a statement of what the project would not do. “If you cannot understand it, you cannot consent to it,” she said. The game was not over, and the walk back to the lab was long. The **significance** of the **start** was that they had to **resume** the work with fewer people, and the four of them could not agree on where to begin.

### 中文翻译

外部压力以院务委员会的一次会议形式到来，会上要求对“同意”这个词给出一个清楚的定义。“你们的大纲必须包含每个字段的字面拼写，”主管说，“表格的一份副本不是一笔交易。”他们四个人不得不对着一间掌握着全部权力、却不掌握任何事实的房间说话。

法律边界与体面边界之间的那道缺口，才是真正的主题。收音机里的一场棒球赛、墙上的一幅图表，以及入口上方大学的那个象征：它们之间的间隔，就是项目所栖身的空间。健康数据没有被纳入复审，而这恰恰是重点。

我的不情愿与合规无关。“我们必须对整个过程做一次革新的翻修，”曼雅说，“我们无法靠改动措辞来取得同意。”一个小额许可的小偷、一片被跳过的步骤的散落，以及一个没人信任的探测系统：这是习惯造成的渗透，而不是攻击。

从实验室看出来的观点不同。“把标准化落实到位，把浏览器的日志规范化，连贯性自然就有了，”工程师说，带着一种数据并不支持的自信。那个空架子、那次迟交，以及走到门口的那段路，在他看来都只是细节的减法。

这场论证的引力把他们拉向遵从：给字段排序、把风险分开，其余的归档。“既不是关，也不是开，”林伟写道，“系统必须保留一份平行记录，记下我们拒绝收集的东西。”走廊里的说法是，董事会无论如何都会叫停这个项目。

它最终的行动很小：四页纸的摘要、一个关于当事人的视角，以及一份说明这个项目不会做什么的声明。“如果你无法理解它，你就无法同意它，”她说。这场游戏还没有结束，而回实验室的那段路很长。这个开端的重要意义在于：他们必须用更少的人重新开始这项工作，而他们四个人在从哪里开始时意见不一。
