### CH098 · What the System Remembers: The Bridge Forward

1. it fitted into a bucket — The scheme was deliberately tiny.
2. duration — The physical equipment would last about ten years.
3. assign a quota — Assign combines with a quota, a task, or a role.
4. query — Trust cannot be restored by a database command.
5. it will include the person after us — He tested inclusion by the next user, not the current one.
